

1. Cultural Context and Origin (6 Points)

- **6 Points:** Provides an accurate explanation of the cultural context and origin of each artifact. Includes details about the culture and historical relevance.
- **4 Points:** Provides a basic explanation of cultural context and origin, but the details are vague, incomplete, or somewhat inaccurate.
- **2 Points:** The explanation of cultural context is minimal, with significant gaps or incorrect information.
- **0 Points:** No explanation of cultural context or origin is provided.

2. Identification of Symmetry Types (8 Points)

- **8 Points:** Accurately identifies the symmetry type of each pattern and uses proper mathematical terminology. Examples or visual aids clearly illustrate the identified symmetries.
- **6 Points:** Correctly identifies most symmetry types, but there may be minor mistakes or gaps in terminology or explanation.
- **4 Points:** Identifies some symmetry types correctly but makes noticeable errors or omissions. The explanations are unclear or lack rigor.
- **2 Points:** Symmetry types are mostly incorrect, or the explanation is minimal and difficult to follow.
- **0 Points:** Symmetry types are not identified or explained.

3. Justification of Symmetry Group Classification (8 Points)

- **8 Points:** Provides a clear, logical, and detailed justification for why each pattern belongs to the specified symmetry group. Uses precise mathematical reasoning and references group properties effectively.
- **6 Points:** Justifies the classification with mostly correct reasoning but may include minor gaps or unclear explanations.
- **4 Points:** Provides a partial justification of symmetry group classification but lacks clarity or omits key details.
- **2 Points:** Attempts justification but provides minimal reasoning or incorrect explanations.
- **0 Points:** No justification of symmetry group classification is provided.

4. Presentation Quality (8 Points)

- **8 Points:** The presentation is well-organized, visually appealing, and engaging. Slides or physical examples are used effectively to support the discussion.
- **6 Points:** The presentation is organized and mostly effective, though some visual aids or examples may be less clear or engaging.
- **4 Points:** The presentation is somewhat disorganized or lacks effective visual aids/examples.

- **2 Points:** The presentation is poorly organized or unengaging, with limited use of visuals or examples.
- **0 Points:** The presentation is disorganized, and visual aids/examples are not used.

Total Score (30 points):

	Excellent	Satisfactory	Unsatisfactory
Organization	Presentation is organized and easily followed. All components are present.	Presentation somewhat organized, but jumps around.	Garbled presentation with missing components.
Preparedness	Solid grasp of the idea with good supporting examples. Able to answer all questions.	Good grasp of result and able to work with notes. Able to answer some questions with assistance.	Confused about the result and/or notes. Unable to answer questions.
Clarity	Articulate and proper use of terms. Speaks clearly and loud. Well-organized use of the board.	Proper use of terms. Lower voice. Good use of the board.	Improper use of terms. Mumbling and/or quiet sentences. Poor use of the board.
Pose	Extemporaneous with notes. Maintain eye contact and interact with class.	Frequent reference to notes. Intermittent eye contact and interaction with class.	Mostly reads notes. Very limited or no eye contact or interaction with class.
Informative	Clear statement of result with good examples. "I've got this!"	"I think I understand most of this, but I'm still a little lost on some of the details."	Garbled statement of result with poor examples. "I have no idea what's going on."
